International Journal of Fracture

CONTENTS OF VOLUME 108 (2001)

Vol. 108, No. 1, 2001

Delamination growth in long composite tubes under external pressure	HAYDER A. RASHEED and JOHN L. TASSOULAS	1–23
Towards a fracture mechanics for brittle piezoelectric and dielectric materials	ROBERT M. MCMEEKING	25–41
Size effect in tensile strength caused by stress fluctuations	ARCADY V. DYSKIN, MARCEL R.A. VAN VLIET and JAN G.M. VAN MIER	43–61
An examination of small fatigue crack morphology	R.L. CARLSON, D.L. STEADMAN and G.A. KARDOMATEAS	63–72
Fracture behavior of stitched warp-knit fabric composites	F.G. YUAN and S. YANG	73–94

Vol. 108, No. 2, 2001

Finite element implementation of thermal weight function method for calculating transient SIFs of a body subjected to thermal shock	Y.-L. LU, H. LIU H. JIA and Z.-Q. YU	95–117
Variation of stress intensity factor along the front of a 3D rectangular crack by using a singular integral equation method	QING WANG, NAO-AKI NODA, MASA-AKI HONDA and MENGCHENG CHEN	119–131
Kinked crack in a bending trapezoidal plate	N. ISHIHAMA	133–142
Study on cleavage fracture criteria of the quasi-brittle and micro-inhomogeneous materials	J.H. CHEN and G.Z. WANG	143–164
Numerical modelling of fracture initiation and propagation in biaxial tests on rock samples	B. VAN DE STEEN, A. VERVOORT and J.A.L. NAPIER	165–191

Vol. 108, No. 3, 2001

Stress intensity factor for a Griffith crack interacting with a coated inclusion	Z.M. XIAO and B.J. CHEN	193–205
On the driving force for fatigue crack formation from inclusions and voids in a cast A356 aluminum alloy	KEN GALL, MARK F. HORSTEMEYER, BRETT W. DEGNER, DAVID L. MCDOWELL and JINGHONG FAN	207–233
On locations initiating cleavage fracture in precracked specimens of low alloy steel and weld metal	G.Z. WANG and J.H. CHEN	235–250
Adaptive finite element analysis of mixed-mode fracture problems containing multiple crack-tips with an automatic mesh generator	K.S.R.K. MURTHY and M. MUKHOPADHYAY	251–274
Analysis of a crack at a weak interface	STEFANO LENCI	275–290

Vol. 108, No. 4, 2001

Stress-strain state of a cracked elastic wedge under anti-plane deformation with mixed boundary conditions on its faces	SUREN M. MKHITARYAN, NOUNE MELKOUMIAN and BEN B. LIN	291–315
Green's functions for the stress intensity factor evolution in finite cracks in orthotropic materials	C. RUBIO-GONZALEZ and J.J. MASON	317–336
The elastic interaction of screw dislocations and a star crack with a central hole	BI-TRONG CHEN, C.T. HU and SANBOH LEE	337–349
Crack kinking under high pressure in an elastic-plastic material	P. ISAKSSON and P. STÅHLE	351–366
Stress intensity factors for a mixed mode center crack in an anisotropic strip	HAIYING HUANG and GEORGE A. KARDOMATEAS	367–381
On the process zone of a quasi-static growing tensile crack with power-law elastic-plastic damage	J. ZHAO and X. ZHANG	383–395
Volume contents		397–398
Author index		399
